

**If your toilet is RUNNING CONSTANTLY, please try the following:**

1. Jiggle the toilet handle to see if that causes the water to stop.
2. If water is continuing to run, please [shut off the water to the toilet.](#)
3. You can turn the water back on to use the toilet if you have to, just turn the water back off after use, until a preferred vendor can fix the issue.

If these steps do not solve your issue, submit a [Maintenance Request](#) through your Online Tenant Portal.
